

## **Licay, Top 9, Leads Lorma's RadTech Passers**

With an outstanding 87.60 average, Jon Perry Licay headlines 33 successful Lormanians passing this year's Radiologic Technology and X-Ray Tech Board Exams by the Professional Regulation Commission of The Philippines (PRC).

Being held within Metro Manila and various regional exam centers on July 5 and 6, 1,325 out of 3,043 passed the exam administered by the Board of Radiologic Technology.

With 33 first-takers thriving, Lorma Colleges garnered a relatively successful 60% passing rate, putting the college in good position overall.

Producing top notchers is a difficult process indeed. "We always believe in the ability of our students and regarding to top notchers, I, as an instructor, always observe their personality which direct them to success" Sir Gerald Hale Viluan says. Yet it is something glorious, not for one, but for all factors involved, whenever it happens.
